

Learn about our 2023 Small Business Energy Solutions program for Indiana electric business

Small Business Energy Solutions makes it easy for your small business to save energy and money!

Eligibility

Small Business Energy Solutions (SBES) is available to small businesses with a monthly electric demand of 400 kilowatts (kW) or less, with CenterPoint Energy general electric service in Indiana. If you are a nonprofit entity, there is no kW restriction. See program application for details and full requirements. Terms and conditions apply.

Examples of eligible projects

Examples of eligible energy-efficient equipment include indoor/outdoor energy-efficient lighting, LED exit signs, lighting occupancy sensors, refrigerator/freezer efficiencies and Wi-Fi enabled thermostats.

The process is simple

- Reducing the set temperature of your boiler may save natural gas as the outdoor temperature increases. Consult with the manufacturer's recommended minimum return water temperature setpoint before implementing this strategy.
- **Schedule an energy assessment.** An SBES Savings Partner conducts an energy assessment at your facility and identifies energy-saving opportunities at your facility. The no cost, no obligation assessment includes:
 - A high-level report recommending energy-saving improvements
 - Access to the highest rebates available for CenterPoint Energy business customers
- **Select energy-saving improvements.** Ask your SBES Savings Partner to schedule a follow-up visit to install your improvements.
- **Receive CenterPoint Energy instant discounts from your SBES Savings Partner.** No waiting for a rebate check or additional forms to complete – you only pay the balance of what you owe after the discounts.
- **Start saving money and energy.** Begin reaping the rewards of lower energy costs and improved efficiency.

For more information

To see if your business is eligible for SBES and to sign up for a no-cost energy assessment, talk to an SBES Savings Partner or contact us directly at IndianaBizPrograms@CenterPointEnergy.com or 866-240-8476. Visit [CenterPointEnergy.com/SBESContractors](https://www.CenterPointEnergy.com/SBESContractors) for our list of approved SBES Savings Partners and schedule your assessment today.

Learn about our 2023 Multifamily Energy Solutions program for Indiana business customers.

Multifamily Energy Solutions makes it easy for your building to save energy and money!

Eligibility

Most multifamily building owners with CenterPoint Energy general electric service qualify for the program, including apartment buildings, condominiums, cooperatives, duplexes, quadraplexes, townhomes, nursing homes and retirement communities. See program application for details and full requirements.

Examples of eligible projects

Examples of eligible energy-efficient equipment include: indoor/outdoor energy-efficient lighting, LED exit signs, lighting occupancy sensors and thermostats.

The process is simple

- **Schedule an energy assessment.** An MFES Savings Partner conducts an on-site energy assessment of all commercially metered areas, like main offices, hallways, pools and parking lots. At the end of the assessment, you will receive a report of recommended energy-saving opportunities, including:
 - A high-level report recommending energy-saving improvements
 - Access to the highest rebates available for CenterPoint Energy business customers
- **Select energy-saving improvements.** Ask your MFES Savings Partner to schedule a follow-up visit to install your improvements.
- **Receive CenterPoint Energy instant discounts from your MFES Savings Partner.** No waiting for a rebate check or additional forms to complete - you only pay the balance of what you owe after the discounts.
- **Start saving money and energy.** Begin reaping the rewards of lower energy costs and improved efficiency. Terms and conditions apply.
